MACARE® SP-740

PRODUCT DATA SHEET

PDS 886311.ACTIVE.1.07222026

PRODUCT DESCRIPTION

Macare® SP-740 is a functionalized anionic polymer designed to impart soil resistance, anti-soil redeposition, soil release and stain blocking properties to carpet and upholstery cleaner formulations.

TYPICAL PROPERTIES

Appearance	Clear, light amber liquid
pH (as is)	2.0 – 4.0
Shelf Life	5 years

APPLICATIONS

Macare® SP-740 offers enhanced stain-blocking performance. Macare® SP-740 is well suited for use in carpet shampoos, extraction cleaners, and spotters as well as with upholstery shampoos and steam cleaners.

ADVANTAGES

Macare® SP-740 treated surfaces repel dry soil, and resist stains. Macare® SP-740 can help to protect carpeting and upholstery with no dulling residue while effectively repelling soils to keep cleaned surfaces cleaner longer.

STORAGE & HANDLING

Refer to the Macare® SP-740 Safety Data Sheet (SDS) before handling. Avoid contact with eyes, skin, and clothing. Wear appropriate personal protective equipment and observe good industrial hygiene practices. Store in a tightly closed container. Recommended storage temperatures are 33°F - 100°F. Macare® SP-740 is a high molecular weight polymer with a steep temperature/viscosity response, which may develop high viscosity when shipped/stored cold. Gently heat, i.e., up to 120°F(50°C), to reduce viscosity for improved handling.

PACKAGING

Available in polyethylene drums
